About TIA

The Telecommunications Industry Association (TIA) represents the value chain of global communications networks, including manufacturers and network operators. TIA creates business opportunities through policy advocacy, technology standards, market intelligence, online media and networking events. TIA produces the [Network of the Future Conference](#) and is accredited by the [American National Standards Institute](#). Visit tiaonline.org.

Applications are Subject to Board Approval

ASSOCIATE MEMBERSHIP APPLICATION

Eligibility

A government agency or a company that is not principally in the business of manufacturing, developing, distributing, installing, launching or consulting in respect to communications or information technology products or services other than commoncarrier. Companies that qualify for that category of membership (General) are not eligible for Associate Membership. TIA Associate Membership is available to companies engaged in financial or legal services.

An Associate Member shall not be entitled to vote on any matter submitted to a vote by members.

Membership Dues Information

Dues for Associate members are based on the global gross revenues of your communications or information technology products or services. Start-up companies that do not yet have revenues will be categorized by overall size of the company to ensure an equitable contribution toward dues.

Please indicate below your gross revenues for the most recent calendar or fiscal year. If your company does not yet have revenues, please provide data on overall capitalization (gross operating budget) of your company.
