5. Agenda Review & Approval

Contribution: 452-20050929-01r2 (Chair) — “Agenda”

The agenda was approved after contributions up to #50 were assigned to the appropriate place.

Status: Accepted as modified

6. Review Previous Meeting Summaries

Contribution: 452-20050929-02 (Chair) — “Previous Meeting Report (July)”

The July meeting report was approved without modifications.

Status: Accepted

Contribution: 452-20050929-04 (Chair) — “Previous Meeting Report (September Conference Call)”

See contribution #29.

Status: Not available

Contribution: 452-20050929-29 (Chair) — “Joint TR-45.2/TR-45.6 Meeting on LAES”

Status: FYI

7. Liaison Reports and Correspondence

a. ATIS

No contributions.

b. NENA/APCO/ESIF

No contributions.

c. ITU

No contributions.

d. 3GPP

No contributions.

e. 3GPP2

Contribution: 452-20050929-09 (3GPP2) — “re: Combining X.P0028 and X.P0035”

Action: Chair will rescind PN-3-0206 and inform TIA that TIA-1073 will not be developed.

Status: Accepted

f. IFAST

No contributions.

g. TR-45 ad hocs and subcommittees

Contribution: 452-20050929-46 (TR-45 EUMAG) — “EUMAG Milestones and Timelines”

Status: FYI

Contribution: 452-20050929-49 (TR-45 LAES Ad Hoc) — “GSC Liaison”

TR-45 LAES ad hoc has proposed January 12th and 13th in Las Vegas for a joint meeting on Lawful Intercept.

No action was taken as LI is now a TR-45.6 responsibility.

Status: FYI

h. TIA TR-45

Contribution: 452-20050929-37 (Chair) — “Report from TR-45 Meeting”

This contribution folder contains the final copy of the TR-45.2 chair’s report to TR-45, and a summary of the meeting.

Status: FYI

j. Other

Contribution: 452-20050929-16 (Motivity) — “SystemMyTypeCode Request”

Action: The chair will work with the TIA-41 master editor to obtain

the next code and write back to Motivity.

Status: Accepted

8. Joint Standards Work

a. Status of Agreement between ATIS and TIA

No contributions.

b. Joint 3GPP2/TIA Standards

Contribution: 452-20050929-42 (Chair) — “Response to 3GPP2 TSG-S on TSB-100/TIA-664”

Action: The chair will send a response to TSG-S regarding TSB-100/S.R0005 and TIA-664/S.R0006.

Status: Accepted as modified

9. TR-45.2 Ad-Hoc and Focus Group Reports

a. AHES (ad hoc for Emergency Services). Chair: Larry Young (Sprint).

The AHES group is now dormant.

Contribution: 452-20050929-28 (GSC-10) — “eCall”

A recent presentation on an in-Vehicle System to provide information at car crash detection while establishing an emergency Call.

Status: FYI

b. AHI (ad hoc for Intercept (lawfully authorized electronic surveillance)). Chair: Nadia Bishai (Ericsson).

Contribution: 452-20050721-12 (Chair) — “Proposal for agreement with TR-45.6 regarding CALEA projects”

This agreement was accepted, with some modifications at a September 2, 2005 conference call, and the transfer was approved by TR-45 a few days later.

Status: FYI

Contribution: 452-20050929-12 (TIA SHS) — “SHS responses on LAES Queries”

Action: The chair will forward contribution #12 to TR-45.6 to ensure that they have these documents.

Status: Forwarded

Contribution: 452-20050929-19 (ATIS PTSC) — “Subject: Status Report of PTSC LAES SC Effort”

Action: Chair will write to ATIS PTSC and WTSC, cc Susan Miller and Tim Jeffries, indicating that LAES activities in TR-45.2 have all been moved to TR-45.6, indicating who the chair is and his contact information.

Status: FYI

Contribution: 452-20050929-21 (ATIS WTSC) — “Re: Additional LAES Capabilities: TIA PN-0125: ATIS Issue Statement P0003”

ATIS WTSC is withdrawing from participation in the “Additional LAES Capabilities” standard, TIA PN-0125.

Status: FYI

Contribution: 452-20050929-27 (ATIS PTSC) — “Consideration of TIA TR 45 Proposals Regarding J-STD-025-B”

Comments from ATIS PTSC on the development of J-STD-025.

Status: FYI

Contribution: 452-20050929-29 (Chair) — “Joint TR-45.2/TR-45.6 Meeting on LAES”

The report from the joint TR-45.2/TR-45.6 meeting was approved on September 7th. Also, on the same day, TR-45 approved the agreement between TR-45.2 and TR-45.6. In sum, all TR-45.2 LAES work (two projects) will be transferred to TR-45.6. TR-45.2 AHI will be closed.

Status: FYI

Contribution: 452-20050929-31 (TR-45 LAES Ad Hoc) — “SP-4465-UGV2-1 default ballot letters”

Status: FYI

Contribution: 452-20050929-33 (AHI) — “SP-3-0199 Transfer to TR-45.6”

Action: The chair will forward the SP-3-0199 text to TR-45.6 as part

of the handover. cc TR-45 LAES ad hoc, Editor Paul Sitch and TR-45 chair.

Status: Accepted

Contribution: 452-20050929-34 (AHI) — “PN-3-0125 Transfer to TR-45.6”

Action: The chair will write to TR-45.6 with the text of PN-3-0125 as part of the LAES handover.

Status: Accepted

**c. NGN (Next Generation Networks). Liaison to TIA NGN Focus Group:
Charles Teising, Lucent**

Contribution: 452-20050929-24 (TIA) — “GSC-10 and NGN Documents”

Status: FYI

Contribution: 452-20050929-25 (TIA) — “NGN Focus Group Technical Framework Principles and Issues”

This is a working document from the TIA on NGN.

Status: FYI

Contribution: 452-20050929-26 (ITU-T) — “TSB Circular 36: Call for Proposals for Requirements on Next Generation Multimedia Terminals and Systems”

This call for proposals was due before this meeting, but the subject may still be of interest to members, and there will be other chances to participate.

Status: FYI

Contribution: 452-20050929-30 (ITU-T) — “ITU NGN Focus Group Meeting Announcement, November 14-17, 2005”

For more information the ITU NGN Focus Group website is at:
<http://www.itu.int/ITU-T/ngn/fngngn>.

Status: FYI

Contribution: 452-20050929-35 (ITU) — “Subject: NGN Global Standards Initiative (NGN-GSI)”

According to David Thompson of the TIA, “The attached can help

describe the current and emerging ITU-T related NGN landscape. The attachment maps FG NGN deliverables into ITU-T Study Groups/Questions and could be instrumental for mapping TIA activities of related scope.”

Status: FYI

Contribution: 452-20050929-39 (Lucent) — “ITU NGN Status”

The NGN liaison reported that the ITU focus group is disbanding in November and will become part of SG 13 NGN and other groups. At that point it is more likely that NGN contributions will work through TR-45.2.

Status: FYI

10. Documentation, Project and Publication Issues

No contributions.

11. TIA Publication Problems (OMA/IETF References)

Contribution: 452-20050929-36 (Lucent) — “TIA-664-000-B-1 Normative References”

A proposal to allow the publication of TIA-664.000. IETF references will be replaced by a reference to TIA-835.

Action: The TIA-664 editor will make the required changes to make TIA-664.000 publishable. The chair will check with the TIA once the document is available, and we will determine whether it can now be published, or whether it needs to be reballoted.

Status: Accepted

12. Documents Under Consideration for Publication

a. PN-3-0083-AD2 (TIA-928-2)/X.S0008-0 v2.0: TIA-41 Support for MEID

Contribution: 452-20050929-43 (TSG-X) — “Publication Request: PN-3-0083-AD2 (MEID)”

TIA-928-2 was accepted for publication following successful completion of an editorial review.

Action: The chair will forward TIA-928-2 for publication pending successful completion of editorial review on October 14th.

Status: Accepted

b. PN-3-0085 (TIA-934) / X.P0016: MMS (Multi-Media Messaging Service): Parts 000-C, 101, 102, 200-A, 330-A, 340-A, 370-A

No contributions.

c. PN-3-0131 (TIA-1020)/X.S0024: IP Based Location Services

Contribution: 452-20050929-20 (TIA) — “TIA-1020/X.P0024 Ballot Completion”

Ballot comments were received from Lucent, Qualcomm and Nokia and were forwarded to 3GPP2 for V&V completion on August 23, 2005. There were no “No” votes. These comments are under review by 3GPP2. Most were resolved at a ballot review meeting earlier in September.

Status: FYI

d. PN-3-0183 (TIA-1055)/X.P0030: MWN Notification Enhancements

Contribution: 452-20050929-44 (TSG-X) — “Publication Request: PN-3-0183 (MWN Notification Enhancements)”

PN-3-0183/TIA-1055 has been recommended for publication by 3GPP2.

Action: The chair will send TIA-1055 to the TIA for publication pending approval of publication at 3GPP2 and receipt of the TIA transposed version from the editor.

Status: Accepted

e. PN-3-0207 (TIA-1074)/X.P0033: OTA Support for MEID in ANSI-41

Contribution: 452-20050929-15 (TIA) — “TIA-1074 Ballot Comments (OTA Support for MEID)”

The TIA-1074 ballot closed on August 5th. Comments from Lucent and Qualcomm were forwarded to 3GPP2 to assist with their V&V process.

Status: FYI

Contribution: 452-20050929-45 (TSG-X) — “Publication Request: PN-3-0207 (OTA Support for MEID)”

The chair will forward TIA-1074 to the TIA for publication following successful completion of an editorial review by October 10th and receipt of the final document from the editor.

Action: The chair will forward TIA-1074 to the TIA for publication following successful completion of an editorial review by October 10th and receipt of the final document from the editor.

Status: Accepted

f. **PN-3-3295-RV2-AD1 (TIA-93-B-1): Revision to Support Wireless Priority Service (WPS)**

Contribution: 452-20050929-13 (Vice-Chair) — “TIA-93-B-1 Ballot Submission”

TIA-93-B Addendum 1 was out for ANS Review until September 26, 2005.

Status: FYI

Contribution: 452-20050929-41 (Telcordia) — “TIA-93-B-1 Pre-Publication Version”

There was no time to review the TIA-93-B-1 ballot comments from Motorola and Qualcomm so a conference call was planned for October 14th. The version incorporating ballot comments is planned to be reviewed at the Beijing TR-45.2 meeting.

Status: Under Review

Contribution: 452-20050929-51 (TIA) — “TIA-93-B-1 Ballot Comments”

There will be a ballot review meeting on October 14th at 2pm ET.

Action: The editor of TIA-93-B-1 will provide a conference bridge for ballot review and then the chair will announce the ballot review meeting. A decision to publish will be considered in Beijing.

Status: Under Review

g. **SP-3590-RV5 (TIA-41-E) / X.P0004-E: Intersystem Operations parts 000-E-1, 400 and 6xx**

TIA-41.6xx-E is still in editorial review. Publication (which has been already approved by TR-45.2) is expected shortly after this meeting when the final text is available.

Contribution: 452-20050929-18 (Editor) — “TIA-41.000/400/6xx-E Publication”

Publication of a number of parts of TIA-41 was approved at the Dallas Meeting (April 21, 2005). The statuses of the parts of TIA-41-E being published in this set are:

- TIA-41.000-E-1 [E]: Submitted August 17, 2005
- TIA-41.400-E: Submitted August 17, 2005
- TIA-41.600-E: Sent back to editor on August 17, 2005 to correct title. Resubmitted August 18, 2005.
- TIA-41.630-E: Submitted August 17, 2005.
- TIA-41.640-E: Submitted August 17, 2005.
- TIA-41.641-E: Submitted August 17, 2005.
- TIA-41.642-E: Submitted August 18, 2005.
- TIA-41.650-E: Submitted August 17, 2005.
- TIA-41.651-E: Submitted August 17, 2005.
- TIA-41.660-E: Submitted August 17, 2005.
- TIA-41.690-E: Submitted August 17, 2005.
- TIA-41.691-E: Submitted August 17, 2005.

Status: FYI

h. PN-3-3590-RV5-AD1 (TIA-41.691-E-1[E])/X.P.0004.691-E v2.0: Graceful Recovery from S&R Failures**Contribution: 452-20050929-06r1 (Editor) — “TIA-41-000-E-2 and -691-E-1 ballot”**

The editor was asked to make some formatting changes to ready the document for TIA ballot on July 27th. Files were later received and submitted for ballot on August 18th. On August 26th the TIA wanted to know whether this was a TIA or ANSI ballot. The chairman requested a TIA ballot instead. The ballot deadline was set as September 26, 2005. No comments were received, and 3GPP2 was informed of this.

3GPP2 will be providing a pre-publication version in October, including 3GPP2 V&V comments.

Status: FYI

i. PN-3-4393 (TIA-945) / X.P0006: ANS-41 Enhanced Security Services

Contribution: 452-20050929-08 (TIA) — “TIA-945 (PN-3-4393; AKA) Ballot Progress”

TIA-945 was balloted from July 28, 2005 until August 29th, 2005. Three “Approve with Comments” ballots were received from Nortel, Lucent and HP. No “No” votes were received. The ballot status and comments were forwarded to 3GPP2 TSG-X to allow the completion of V&V on X.P0006. A request for publication is expected at the October meeting.

Status: FYI

j. PN-3-4463-AD1 (TSB-100-A -1): Network Reference Model

Contribution: 452-20050929-14 (Vice-Chair) — “TSB-100-A-1 Ballot Submission”

The TSB-100-A-1 ballot closed on September 7, 2005. There was one legal comment. There were no ballot comments.

Status: FYI

Contribution: 452-20050929-40 (Telcordia) — “TSB-100-A-1 Pre-Publication”

The editor of TSB-100-A-1 will incorporate any editorial review changes and forward to the chair for publication.

Action: The editor of TSB-100-A-1 will incorporate any editorial review changes and forward to the chair for publication. There will be an online editorial review of TSB-100-A-1 until COB on October 7th.

Status: Accepted

k. PN-3-4935 (TIA-873)/X.S0013: MMD Parts 000, 003, 004, 005, 006, 008, 010, 011

Contribution: 452-20050929-05 (TIA) — “TIA-873 Publication Problems”

During legal review the TIA determined that TIA-873.003-1[E], TIA-873.004-1[E], TIA-873.005-1[E], TIA-873.006-1[E], TIA-873.008-

1[E], TIA-873.010-1[E], and TIA-873.011-1[E] make reference to IETF RFC's and therefore cannot be published at this time.

Part 000 also has a TSB as a normative reference which must be made informative.

Publication hold due to lack of 3gpp2 V&V has been removed.

Status: FYI

Contribution: 452-20050929-10 (3GPP2) — “TIA-873.004/008-A Ballot (X.P0013 - MMD)”

TIA-873.004-A and TIA-873.008-A were submitted for ballot on August 22nd after the cover pages were corrected to include TIA PN and standard information. Part 008 is out for ballot until September 26th. Part 004, although it was acknowledged by the TIA website, was not actually received by them, and ballot was delayed until October 3, 2005.

Contribution: 452-20050929-11 (Editor) — “TIA-873.007-A Ballot”

TIA-873.007-A was sent for ballot after a file with the correct cover page was supplied. Note that file ‘b’ was submitted with the wrong PN number (4395, should have been 4935). The ballot closed on August 31st and comments from Motorola and Qualcomm were forwarded to 3GPP2 TSG-X to complete V&V. No “No” votes were received.

13. Documents Under Consideration for Ballot [vote required]

a. **PN-3-0133 (TIA-1022) / X.S0025: Legacy MS Domain Step-2**

No contributions.

b. **PN-3-0151 (TIA-1032) / X.S0027: Presence Service: Architecture and Functional Description: Parts 000-1, 002, 003, 004**

No contributions.

c. **PN-3-0204 (TIA-1069)/X.S0029: ÔAll IPÕ Conferencing based on TS 24.147**

No contributions.

d. **PN-3-4935 (TIA-873)/X.S0013: IP Core Network - Multimedia Domain, parts 007 and 008**

Contribution: 452-20050721-09 (3GPP2) — “TIA-873-007-A Ballot”

Information on the delayed ballot of TIA-873-007-A. See this month’s contribution #11 for more up to date information.

e. **PN-3-4652 (TIA-664): Wireless Feature Description (TIA-664) - Parts 000 and 537 (WIN Service Drivers)**

Contribution: 452-20050421-13 (Editor) — “TIA-664-537 (WIN Service Drivers) Baseline”

The editor of TIA-664 will prepare ballot ready copies of parts 000 and 537 and forward them to the chair for submission for TIA ballot.

Action: The editor of TIA-664 will prepare ballot ready copies of parts 000 and 537 and forward them to the chair for submission for TIA ballot.

Status: Accepted

14. **TIA Only Projects Under Development**

a. **SP-3-0199 (TIA-1071): IP Multimedia Subsystem Electronic Surveillance - Technical Aspects**

No contributions.

b. **ANSI SS7 Translation Type (TT)/Subsystem Number(SSN) Coordination**

Contribution: 452-20050929-07 (Chair) — “Letter to PTSC re: SS7 TT/SSN”

The copy of the letter to PTSC regarding SS7 TT and SSN that was actually sent. Minor editorial changes were made by the chairman, including the addition of his signature.

Status: FYI

Contribution: 452-20050929-17 (ATIS PTSC) — “Subject: Re: SS7 TT and SSN Issue”

TR-45.2 will wait for ATIS PTSC to respond to our July liaison

(contribution #7) before initiating any more correspondence on this issue.

Status: Accepted

c. Resolution of OBF Issues regarding wireless toll-free dialing

Contribution: 452-20050929-38 (Chair) — “Action on OBF Wireless Toll-Free Issues”

It was decided that more information on OBF Issue #2614 is needed before TR-45.2 can even determine whether it is their responsibility.

It was decided that TIA-660 should be rescinded and that dialing plan issues have never truly been the responsibility of TR-45.2. The chair will respond back to OBF on Issue #2614 and point out that this may be an ISUP signaling issue. If so, a call-detail generation solution is not possible. Corrections or clarifications to ISUP signaling standards are the responsibility of ATIS PTSC to resolve. If it proves that the ISUP signaling standards are correct, and it truly is the generation of wireless call detail records that is incorrect, we would appreciate more detailed information on this problem.

The issue of rescinding TIA-660 will be placed on the agenda (but with a note indicating that it won't be discussed until December). OBF will be informed that we are currently determining the future status of our dialing plan standard, TIA-660.

16. **New Business**

a. **HRPD-1X Handoff**

Contribution: 452-20050929-32 (Lucent) — “New Project Request for HRPD-

1X Handoff”

The chair will submit a project request for a new project to standardize “Voice Call Interoperability between IMS and Circuit Switched Systems”. The parts are:

- 0 - Overview. Krisztian Kiss Editor.
- 1 - Stage 2. Krisztian Kiss Editor.
- 2 - Stage 3. Editor tbd.

17. Review of Workplan

Contribution: X00-20050926-003 (PMT) — “TSG-X Workplans”

Action: The chair will update the combined 3GPP2/SDO workplan for TIA-664 parts 000 and 537.

Status: Under Review

18. Next Meeting

The next TR-45.2 meeting will be held on October 27th, 2005 in Beijing, China. Being a foreign meeting location, discussion of some issues may be limited.

An informal ballot review meeting for TIA-93-B-1 will be held by conference call on October 14th at 2pm ET.

8:00 – 11:00, October 27, 2005

Beijing Friendship Hotel
Beijing, China

19. Open Discussion

No contributions.

20. Assignments

1. Chair will rescind PN-3-0206 and inform TIA that TIA-1073 will not be developed.
2. The chair will work with the TIA-41 master editor to obtain the next code and write back to Motivity.
3. The chair will send a response to TSG-S regarding TSB-100/S.R0005 and TIA-664/S.R0006.
4. The chair will forward contribution #12 to TR-45.6 to ensure that they have these documents.
5. Chair will write to ATIS PTSC and WTSC, cc Susan Miller and Tim Jeffries, indicating that LAES activities in TR-45.2 have all been moved to TR-45.6, indicating who the chair is and his contact information.
6. The chair will forward the SP-3-0199 text to TR-45.6 as part of the handover. cc TR-45 LAES ad hoc, Editor Paul Sitch and TR-45 chair.
7. The chair will write to TR-45.6 with the text of PN-3-0125 as part of the LAES handover.
8. The TIA-664 editor will make the required changes to make TIA-664.000 publishable. The chair will check with the TIA once the document is available, and we will determine whether it can now be published, or whether it needs to be rebaloted.
9. The chair will forward TIA-928-2 for publication pending successful completion of editorial review on October 14th.
10. The chair will send TIA-1055 to the TIA for publication pending approval of publication at 3GPP2 and receipt of the TIA transposed version from the editor.
11. The chair will forward TIA-1074 to the TIA for publication following successful completion of an editorial review by October 10th and receipt of the final document from the editor.
12. The editor of TIA-93-B-1 will provide a conference bridge for ballot review and then the chair will announce the ballot review meeting. A decision to publish will be considered in Beijing.
13. The editor of TSB-100-A-1 will incorporate any editorial review changes and forward to the chair for publication.
14. The editor of TIA-664 will prepare ballot ready copies of parts 000 and 537 and forward them to the chair for submission for TIA ballot.
15. The chair will respond back to OBF on Issue #2614 and point out that this may be an ISUP signaling issue. If so, a call-detail generation solution is not possible. Corrections or clarifications to ISUP signaling standards are the responsibility of ATIS PTSC to resolve. The issue of rescinding TIA-660 will be placed on the agenda (but with a note indicating that it won't be discussed until December). OBF will be informed that we are currently determining the future status of our dialing plan standard, TIA-660.

16. The chair will submit a project request for a new project to standardize “Voice Call Interoperability between IMS and Circuit Switched Systems”. The parts are:

- 0 - Overview. Krisztian Kiss Editor.
- 1 - Stage 2. Krisztian Kiss Editor.
- 2 - Stage 3. Editor tbd.

17. The chair will update the combined 3GPP2/SDO workplan for TIA-664 parts 000 and 537.

21. Adjournment

This meeting was conducted in accordance with the TIA Legal Guides and the Engineering Manual.
