

Fee Structure for Mobile Equipment Identifier (MEID) Assignments

Each MEID block assigned is capable of producing 1,048,576 units. At the time an application (FORM A) is filed, the Administrator will notify the applicant of the administrative fee to be paid for the assignment to be completed. FORM A can be found at:

<http://www.tiaonline.org/standards/resources/MEID>

Each single mode MEID Code block capable of producing 1,048,576 units is priced at \$4,000 USD.

Each multi-mode IMEI/MEID Code block capable of producing 1,000,000 units is priced at \$4,000 USD.

Examples:

One (1) block equivalent to 1M	= \$4,000	= \$ 4,000 USD
Two (2) blocks equivalent to 2M	= \$4,000 + 4,000	= \$ 8,000 USD
Four (4) blocks equivalent to 4M	= \$4,000 + 12,000	= \$16,000 USD
Eight (8) blocks equivalent to 8M	= \$4,000 + 28,000	= \$32,000 USD

Note: For established manufacturers with a history of very large production runs, a larger contiguous assignment block of 16M (16,777,216 in single mode MEID format) is equivalent to sixteen (16) blocks of 1M, and the administrative fee is calculated according to the same algorithm.

Example:

One block of 16M	= Sixteen (16) blocks of 1M
	= \$4,000 + \$60,000 = \$64,000 USD

The turnaround time for applications is specified in the MEID assignment guidelines. A rush fee of \$1,000 USD may be applied to all applications requiring a faster turnaround.

Payment by Credit Card

- Credit Card applications are encouraged.
- The Administrator will provide an Acrobat PDF receipt to be returned with your correspondence packet at the time your UIM_ID codes are assigned.
- An administrative fee of \$250 USD may be assessed in the event that a credit card payment is later reversed for any reason after an assignment has been made.

Payment by Wire Transfer

- Bank wire transfer information is also available upon request.
- The amount received by TIA will be net of all fees. That is, you will need to add any wire transfer fees imposed by your financial institution to the amount of the invoice.

- In the event of a shortfall, TIA reserves the right to add a processing fee of \$100 USD to the invoice for the next order.

In all cases, assignments will be provided to applicants via email once the required administrative fees have been paid.

More information, including the Assignment Guidelines, is available on the TIA web site at the following location:
